

NOXIOUS WEED SHORT COURSE

April 16-19, 2012

Sylvan Dale Guest Ranch
Loveland, Colorado

An intensive three-day study of current technologies and best management practices associated with noxious and invasive weeds in the western United States.

The course includes classroom lecture, hands-on demonstration, field plots, live weed and herbicide symptomology specimens, facilitated discussion, small group projects, educational games, and time for individual interaction with instructors.
